Ship Adjustments

UCM

UCM Abilities

~~r1.4 Increase Colonial Legions cost from 1AP to 2AP~~

◊ Change Colonial Legions to

Cost	Effect
1AP	**Aerobraking:** At the start of a friendly Group in Orbit's activation, that Group may move up to the maximum distance allowed by its Order this activation. At the end of its activation, it is moved into Atmosphere. Ships of L, M, and H Tonnage do not take damage due to Atmosphere this activation. Ships of C Tonnage only take 1D3 damage due to Atmosphere this activation instead

Reduce Intensify Point Defence cost from 2AP to 1AP

~~r1.4 Change Intensify Point Defence to "At the end of the Planning Phase, pick one friendly Group. All Ships in that Group improve their Aegis-X value by 2 or gain Aegis-1 if they do not have the Aegis-X special rule."~~

◊ Change Intensify Point Defence to "At the start of the asset phase, pick one friendly Group. Until the end of the round, Ships in that Group cannot be affected by Saturation Fire and may re-roll Energy and Kinetic saves of a 1 when rolling to save against Torpedoes and Mines."

Change Infiltrate and Sabotage to "At the end of the Planning Phase, pick one Dropsite within 6" of a friendly Group. That Dropsite takes D3+1 Core hits."

~~r1.4 Change Mass Driver Volley to "When you assign a Group's weapons to a target, each of the attacking Group's Weapon Systems with "Mass Driver" in their name improve their Lock by 1 for that attack sequence."~~

◊ Change Mass Driver Volley to "When you assign a "Mass Driver" Weapon System to targets, that Weapon System improves its Lock by 1 for that attack sequence. If that Weapon System already has a Lock value of 2+, it causes criticals on a result of a 3+ for that attack sequence instead."

◊ Change the last sentence of Atmospheric Bombing Run to "That Wing reduces its Thrust by 2" and gains the Bombardment special rule until the end of the round."

UCM Captain

◊ Change Dedicated Survey Teams to

Cost	Effect
1AP	**Interceptors:** When a Wing of enemy Bombers are placed in or moved into based contact with a friendly Ship, before they attack, choose a Wing of friendly Fighters within their Thrust of the friendly Ship. Move any number of Fighters from that Wing into base contact with the Friendly Ship, then remove the moved Fighters and that many enemy Bombers. Fighters moved this way cannot ignore intervening Scenery for any reason.

UCM Rear Admiral

Change Overcharge Lasers to "When you assign a Group's weapons to a target, pick one of the attacking Group's Weapon Systems with "Laser" in its name. That Weapon System gains Fusillade-2 for that attack sequence."

Scourge

Scourge Abilities

Reduce For the Species cost from 2AP to 1AP

~~r1.4 Change For the Species to "At the end of a friendly Groups' activation, pick a Crippled Ship in that Group and target an enemy Ship within 3" of it on the same Orbital Layer. Roll a dice for each of the friendly Ship's remaining Hull Points. The target Ship is inflicted 1 Damage for each result of a 3+. The friendly Ship is destroyed and does not roll for explosion."~~

◊ Change For the Species to "At the end of a friendly Group's activation, pick a Crippled Ship in that Group. That Ship explodes with a Reactor Overload effect. If the exploding Ship is H tonnage, it explodes with a Reactor Overload effect twice. If that Ship is C tonnage, it explodes twice with a Foldspace Catastrophe instead. Remove the exploding Ship after resolving its explosions."

◊ Change Abandon All Hope to

Cost	Effect
2AP	**Point Blank Death:** After rolling to hit an enemy Group in base contact with an attacking friendly Group, re-roll the hit roll for all weapons assigned to that enemy Group.

~~r1.4 Change Assimilated Bioforms to "At the start of the Battalion Combat step of the Asset Phase, pick a City with friendly Battalions on it. Deploy D3 Assimilated Battalions to that City. At the end of the Battalion Combat step, remove any remaining Assimilated Battalions from the Dropsite."~~

◊ Change Assimilated Bioforms to

Cost	Effect
1AP	**Out of Sight, Out of Mind:** At the start of an enemy Group's activation, choose a friendly Group with 0 Spikes or the Stealth special rule. That Group cannot be targeted this Activation if the Weapon targeting it could target another friendly Group on the same Orbital Layer of the same or larger tonnage, and that other Group is closer to the attacking Group.

Increase High Speed Launch cost from 1AP to 2AP

Change High Speed Launch to "At the end of the Planning Phase, pick a friendly Group. That Group gains Rapid Drop and may launch Assets at the end of its activation while on the Max Thrust order until the end of the round."

◊ Change Expert Defence Crews to

Cost	Effect
1AP	**Silent Killer:** When a friendly Group is given the Silent Running Order, that Group cannot gain Spikes due to your opponent's weapons, special rules, and Abilities until the end of the round.

Scourge Fleet Thrall

Change Launch Free to

Cost	Effect
1AP	**Reaving Gaze:** When you assign a Group's weapons to a target, pick one of the attacking Group's Weapon Systems with "Oculus" in its name. That Weapon System replaces its Scald-X rule with Reave-X (of the same value) for that attack. If the attacking Group has 2 or more Ships, this Ability costs 2AP.

◊ Change the 2nd sentence of Reaving Gaze to "That Weapon System replaces its Scald-X value with Reave-X+1 for that attack."

~~r1.4 Reduce AP cost of Countermeasures Hack from 2 to 1~~

~~r1.4 Change Countermeasures Hack to "At the start of a friendly Group's activation, target an enemy Group that a friendly Admiral can draw line of sight to. Until the end of the activation, that Group cannot use its Backup Save, cannot gain the benefits of Aegis, and cannot gain the benefits of Fighters' Close Protection. If this Ability targets a H or C tonnage Group, this Ability costs 2AP."~~

◊ Increase AP cost of Countermeasures Hack from 1 to 2

◊ Change Countermeasures Hack to "At the start of a friendly Group's activation, choose an enemy Ship in line of sight of a friendly Admiral. Until the end of the activation, that Ship counts as having a Defences Offline token. If this Ability targets a H or C tonnage Group, this Ability costs 3AP."

~~r1.4 Change Weapon Hack to "Once per round, at the start of an enemy Group's activation, choose one of that Group's Weapon Systems. Until the end of that Group's activation, each of that Weapon System's attack dice results of a 1 causes the attacking Ship to lose the weapon's unmodified Damage value in hull points."~~

◊ Change Weapon Hack to "When an opponent assigns weapons to friendly Ships, choose one of the attacking Group's Weapon Systems. Until the end of the attacking Ships' activation, that Weapon System automatically misses on rolls of a 2 or less and your opponent cannot use abilities on those weapons. This can cause that opponent's unresolved abilities on that Weapon System to be negated."

Replace Command Hack with the following ability

Cost	Effect
1AP	**Ship of the Line:** When you assign targets to a Group's weapons, that Group's Broadside Arc weapons that have the Fusillade-X special rule gain the benefit of their Fusillade rule regardless of the Group's Order for its attacks this activation. If the attacking Group is on the Weapons Free order, it instead doubles the Fusillade value of those weapons for that attack

◊ Change the last sentence of Ship of the Line to "If the attacking Group is on the Weapons Free order, improve the lock of Broadside Arc weapons with Fusillade-X by 1 for this attack sequence."

~~r1.4 Change Drive Hack to "Once per round, at the end of the Planning Phase, target an enemy Group that a friendly Admiral can draw line of sight to. At the start of that Group's activation, it must make a single Backup save. If it fails (or has no) Backup save, that Group cannot go on the Course Change and Max Thrust orders."~~

◊ Change the Drive Hack to "Once per round, at the start of an enemy Group's activation, if that Group is in a friendly Admiral's line of sight, the enemy Group makes a single Backup save. If it fails its (or has no) Backup save, that Group reduces its Thrust value by half this activation."

~~r1.4 Change Elite Ground Forces to "At the start of the Battalion Combat step of the Asset Phase, choose a Feature containing friendly Battalions. Until the end of the Battalion Combat step, those Battalions remove 2 enemy Battalions instead of 1 and may also be used to remove enemy Battalions from anywhere on that Dropsite in the 3rd step of the combat sequence."~~

◊ Change Elite Ground Forces to

Cost	Effect
2AP	**Hull Tanking:** After an opponent assigns weapons to friendly targets, choose one of those friendly Groups. That Group gains Reinforced Armour until the end of the Activation. If the friendly Group is H or C tonnage, this Ability costs 3AP.

Shaltari

Shaltari Abilities

◊ Change the AP cost of Impel Mines from 1 to *

◊ Change Impel Mines to “Once per game, at the start of the Activation Phase, choose up to three different friendly Ships within 18" of a friendly Ship with the Mothership special rule. Those Ships gain 1 Impel Mine Launch Asset until the end of the game. This Ability costs 1AP for each chosen Ship.

◊ Increase cost of Advanced Picket Ships from 1AP to 2AP

◊ Change Advanced Picket Ships to “When you raise a group’s shields, until the start of its next activation, it does not triple its signature value. If that group is H or C tonnage, this ability costs 3AP.”

◊ Change Misdirection to

Cost	Effect
1AP	**Launch Gate:** When a friendly Carrier launches Fighters or Bombers, those Launch Assets may be launched through a Gateship chain, counting as a Dropship for the purposes of the Gateship-X special rule.

◊ Change the cost of Navigational Mastery from 1AP to 1-2AP

◊ Change Navigational Mastery to “At the start of a friendly Group’s activation, until the end of its activation, that Group gains Vectored and increases its Thrust by twice the AP paid to use this ability.

◊ Reduce the cost of Power to the Weapons from 2AP to 1AP

◊ Change Power to the Weapons to “At the start of a friendly Group’s activation, if that Group has the Shield-X+ special rule, that Group may attack with any number of its weapons on General Quarters, but cannot raise its Shields or gain a shields token. If this ability is used on a Group with 4 or more Weapon Systems, this Ability costs 2AP.”

Replace Master of Gravity with the following abilities

Cost	Effect
~~2AP~~	~~**r1.4 Master of Gravity:** At the start of an enemy Group's activation, pick another enemy Group that has not activated this round. Turn all Ships in that Group up to 90 degrees in the same direction.~~
2AP	**Master of Gravity:** At the start of this Admiral's activation, pick an enemy Group that has not activated this round. Turn all Ships in that Group up to 90 degrees in the same direction. Ships of H or C tonnage may make a Backup save to reduce this effect to 45 degrees instead. Backup saves rolled this way cannot be affected by Abilities.
2AP	**Gravity Assist:** At the start of a friendly Group's activation, turn all Ships in that Group up to 45 degrees in the same direction. Ships in that Group gain Vectored until the end of the round.

Resistance Abilities

Change Duct Tape and Bubblegum to “When a friendly Ship of M, H, or C tonnage is destroyed by damage from an opponent's attack (including any Crippling or Explosion Effects), it remains in play until the start of the End Phase. At the start of the End Phase, roll for explosion and remove that Ship from play. That Ship counts as destroyed.”

~~r1.4 Change Redundant Ship Systems to “When you would Roll for Crippling Effects for a friendly Ship (for any reason), roll 1D6 instead of 2D6 for that Ship’s Crippling Effect. Count a result of a 1 as a result of a 2.”~~

◊ Change the cost of Redundant Ship Systems from 1AP to *AP

◊ Change Redundant Ship Systems to “When you would roll for Crippling Effects for a friendly Ship (for any reason), after rolling, you may pay up to 3AP. Add or subtract 1 (to a minimum of 2) from the result of the roll for each AP paid this way.”

~~r1.4 Reduce Final Mission AP cost from 2AP to 1AP~~

◊ Change Final Mission to

Cost	Effect
1AP	**Big Guns a' Blazing:** When you assign a Group's Weapon System with Damage 2 or higher to targets, double the Attack value of that Weapon System and that Weapon System has an unmodifiable Lock value of 4+ and only causes criticals on a 6+ for this attack and cannot have its dice rolls modified in any way. If this Ability affects a Weapon System with an Arc of B, it costs an additional 1AP. If this Ability affects a Weapon System on a Ship of H or C Tonnage, this Ability costs an additional 1AP (additional costs are cumulative).

~~r1.4 Change Never Tell Me The Odds to “When you move a Group through Scenery or move/place a Wing of Assets through Scenery, that Group/Wing ignores the effects of that Scenery piece until the end of the movement.”~~

◊ Change Never Tell Me The Odds to "When you move a Group through Scenery you may re-roll any Kinetic or Energy saves for that movement. When you move/place a Wing through Scenery, you may re-roll the dice when rolling to remove those Assets."

~~r1.4 Change Sabotage to “At the end of the Activation Phase, before activating Dropsites, pick one Dropsite controlled by an enemy player within 6” of a friendly Group. That Dropsite takes D3+1 Core Hits. After rolling, you may spend an additional 1AP to re-roll the D3 and treat this ability as an attack for the purposes of removing a feature.”~~

◊ Change Sabotage to

Cost	Effect
1AP	**Missile Storm:** At the start of a friendly Group's activation, choose a Weapon System with "Missile" in its name. That Weapon System gains Fusillade-2 and Anti-Wing until the end of the Activation.

Resistance Engineer

Change Subsystem Network to “Before you attack with a Group of M tonnage, pick two of its weapon systems with the same name without the Linked-X special rule. Those weapons gain Linked-SSN for that attack.”

◊ Change Artillery Strike to

Cost	Effect
2AP*	**Artillery Strike:** Before attacking with a Group, choose one of that Group's Weapon Systems with "Artillery" in its name. That Weapon System gains the benefit of its Fusillade rule and you may choose one of the following: • That Weapon System's damage type becomes Core for that attack. • That Weapon System and all of that Group's "Artillery" Weapon Systems gain Linked-SSN for that attack if they have no Linked value. If that Weapon System is on a H or C tonnage Ship or a Group of 3 or more Ships, this ability costs 3AP.

Bioficer

Abilities

◊ Change Good Fight, We Should Do It More Often to "At the end of the Activation Phase, choose one friendly Group and one enemy Group of the same or greater Tonnage within Scan range of the friendly Group. Starting with the friendly Group, Both Groups attack with a single Weapon System as if on the General Quarters Order, following the sequence in 7.3 Attack until 7.3.5 Inflict Damage. Damage from these attacks is then inflicted simultaneously."

◊ Change Maddening Communique to:

Cost	Effect
1AP	**Esoteric Ammunition:** When you assign a Group's weapons to a target, each of the attacking Group's Weapon Systems with "Barb" in their name gain Bloom-1, Flash-1, and Critical-1 for that attack

~~r1.4 Change Forcing an Unfair Fight to "At the start of the Activation Phase, pick a Dropsite you contest. Add a friendly Battalion to each Feature on that Dropsite. At the beginning of the Cleanup step of the End Phase, remove a friendly Battalion from each Feature on that Dropsite."~~

◊ Change Forcing an Unfair Fight to:

Cost	Effect
1AP	**Limited Sensor Profile:** When an enemy Group assigns weapons to a friendly Group, if that enemy Group's Lead Ship is in the Front or Rear Arc of the closest Ship to it in the friendly Group, reduce the Lock of the weapons targeting the friendly Group by 1.

Reduce Precision Strike AP cost from 3 to 2

~~r1.4 Change Precision Strike to "When you assign a Group's weapons to targets, pick one of the attacking Group's Weapon Systems. Improve the Lock of that Weapon System by 1 for this attack sequence."~~

◊ Change Precision Strike to "At the start of a friendly Group's activation, choose one weapon on a Ship in that Group. That weapon gains Crippling until the end of the Group's activation. Weapons with the Close Action special rule are unaffected."

◊ Change Prismatic Surprise to "Once per round, when you assign targets to a weapon with "Prism" in its name, other friendly Ships with the same name as the attacking Ship and that are within 12" of the target may contribute to the attack. For each Ship that contributes, the attacking "Prism" weapon increases its Attack by 1. If this causes the Attack of the attacking weapon to double or more, that weapon gains Penetrator for that attack.

~~Reduce Unsportsmanlike Behaviour cost from 4AP to 3AP~~

◊ Reduce Unsportsmanlike Behaviour cost from 3AP to *AP

~~r1.4 Change Unsportsmanlike Behaviour to "During this round's Cleanup step of the End Phase, all players retain any unspent AP from this round into the next round. In the next round, only players that have used this Ability this round can generate AP in the Planning Phase."~~

◊ Change Unsportsmanlike Behaviour to "At the start of the Activation Phase, you may pay up to 3AP. If you do, roll twice that many dice and declare the unmodified results to your opponent. Until the end of the Activation Phase, after your opponent rolls to hit, for Crippling Effects, and for Explosion Effects, you may replace one of the dice in that roll with one of your declared dice, as if using an Ability. Any unused dice are lost at the end of the Activation Phase."

Fleet Space Statons

◊ Features have been overhauled on each type of Space Station. Space Stations can now take from a larger variety of Features with differing effects. Each Space Station has had its mandatory Features addressed, so no more launch Space Stations taking Weapons Control features. Some Space Stations may take additional features as optional upgrades.

◊ Two new structures have been added for narrative play when using attacker/defender type scenarios. These cost no points, but cannot be taken with any other structures and can only be used when choosing a scenario ahead of time with an opponent that agrees to their use.
