Fleet Space Stations

Fleet Space Stations

You may pay the points listed to include a single Fleet Space Station in your Fleet. Fleet Space Stations do not count towards Tonnage limits when building your fleet. Faction specific Fleet Space Stations may only be included in a Fleet of that faction.

Fleet Space Stations are Dropsites. Fleet Space Stations only count towards scoring for points of Ships destroyed and Dropsites **Surveyed** at the end of the game. Fleet Space Stations are ignored for Standard Scoring (and anything that uses the Standard Scoring Table). You cannot Survey your own Fleet Space Stations (regardless of whether you control or contest them).

After placing scenery, before the first Planning Phase, place your Fleet Space Station on your side of the board (where applicable), at least 8" away from **your** deployment zone, 6" away from any Dropsite, or board edge, and 3" away from any Scenery. If your Fleet Space Station has the Shield-X+ rule, you may place it with a shields token.

Once placed, a Fleet Space Station cannot be moved or turned for any reason.

Only the player that paid points for a Fleet Space Station may benefit from or use any Special Rules, Features, Structures, or Weapons the Station started the game with. A player cannot attack their own Fleet Space Station unless it is controlled by an opponent.

Each Fleet Space Station gains Spikes as if it was a Group (though still needs to be targeted by attacks and rules as a Dropsite). Fleet Space Stations lose 1 Spike each time they activate, but otherwise follow the rules for Dropsites, using the stated stats.

There are several upgrades for your Fleet Space Stations depending on their listed Hardpoints. You might want to upgrade especially large Fleet Space Stations more than once. While these individual sprawling stations make for great looking models, they are more suited for narrative play. Agree with your opponent before the game starts. For more competitive games we recommend following the rules listed.

Fleet Space Station Activation

Fleet Space Stations are Dropsites and follow the normal Dropsite rules for Controlling and Contesting.

Players may only activate their own Fleet Space Station and cannot activate an opponent's Fleet Space Station, even if they control it. Fleet Space Stations activate during the Asset Phase alongside other Dropsites, but may be activated when Contested.

Space Station Features

Each Fleet Space Station has a number of Features automatically, and may have the option to purchase additional Features. **If a Space Station has a specific Feature, it does not pay points for that Feature**. If it must or may take additional non-specific Features, those Features cost their stated points. Space Stations may have multiple of the same Feature.

Pts	Type	ES	KS	Hull	Effect
5	Launch Control	4+	4+	5	When all Launch Control Features are removed from a Space Station, that Station cannot Launch Assets
5	Weapons Control	4+	4+	5	When all Weapons Control Features are removed from a Space Station, that Station cannot use its Weapon Systems
5	Life Support	5+	5+	6	When this Feature is removed, each player removes a Battaion from this Space Station, then at the end of each subsequent Cleanup step, each player removes a Battalion from this Space Station.
0	Reactor Core	5+	5+	6	When this Feature or a Space Station with this feature is destroyed, it explodes with a Reactor Overload Explosion Effect with a range of D6+3".
10	Redundant Systems	4+	4+	7	This Space Station gains a 6+ Backup Save.
10	Firing Computer	5+	5+	5	This Space Station's Close Action weapons gain 6" additional range.
20	Defensive Systems	2+	2+	3	None
25	Supercontrol Node	4+	4+	6	During the Activation and Asset Phases, you count as controlling this Space Station

Space Station Armaments

Some Fleet Space Stations may also take Armaments, which may be either Weapon Systems or Structures. These are not Features, but may be disabled by the destruction of Features on the Station. Armaments always cost their listed points, even if they are not optional.

Weapon Systems – Multiple identical options may be taken

Pts	Name	Arc	Att	Lock	DMG	Type	Special
15	Laser Armament	F/S/R	2	3+	1	E	Burnthrough-1, Flash-1
10	Mass Driver Armament	F/S/R	3	3+	1	K	-
5	Missile Armament	F/S/R	4	3+	1	K	Close Action

Structures – Up to 1 of each may be taken

Pts	Type	Effect
10	Deep Space Tracking	When this Space Station targets enemy ships, Spikes on those ships have double their normal effect. So a Spike would increase the target's Signature by 6" instead of 3".
15	Scanner Uplink	This Space Station's Scan range is increased by 3". In addition, friendly ships within 3" of one or more Space Stations with this special rule increase their Scan range by 3". This special rule ceases to function while this Space Station is controlled by an enemy player.
*	Defensive Garrison	This Structure does not cost points and can only be taken by a player that is the Defender in a scenario, choosing the scenario and agreeing with your opponent ahead of time. This Space Station starts the game with 2/3/4 Battalions on it for Small/Medium/Large Space Stations respectively. A Space Station that takes a Defensive Garrison cannot take any other Structures.
*	Forward Operating Base	This Feature does not cost points and can only be taken by a player that is the Attacker in a scenario, choosing the scenario and agreeing with your opponent ahead of time. This Space Station may launch a single Bomber each round in addition to its normal launch (following Launch timing, restrictions, and your faction's Bombers rules). Instead of attacking normally, you may remove this Bomber to place 2 Battalions on a Ship or Space Station in base contact with it. A Space Station that takes a Forward Operating Base cannot take any other Structures.

Small Space Station						30 pts	
Orbital Satellite						30mm	
Scan	Sig	Hull	ES	KS	BS	G	Special
6"	4"	10	4+	4+	-	1	-

Hardpoints

This Space Station has a Weapons Control and a Life Support Feature. It may take one Armament from the Space Station Armaments list.

This station may be upgraded with 1 of the following:
- Astrobotanical Lab for +30 points
- Defence Grid for +80 points
- One option from the Space Station Features list

Medium Space Station						45 pts	
Orbital Hub						40 mm	
Scan	Sig	Hull	ES	KS	BS	G	Special
6"	6"	15	4+	4+	-	1	-

Hardpoints

This Space Station has a Life Support Feature. It must take three additional Features, and it may take up to two options from the Space Station Armaments list.

This station may be upgraded with 1 of the following:
- Astrobotanical Lab for +30 points
- Defence Grid for +80 points
- One option from the Space Station Features list

Large Space Station						65 pts	
Orbital City						50 mm	
Scan	Sig	Hull	ES	KS	BS	G	Special
6"	8"	25	4+	4+	-	1	-

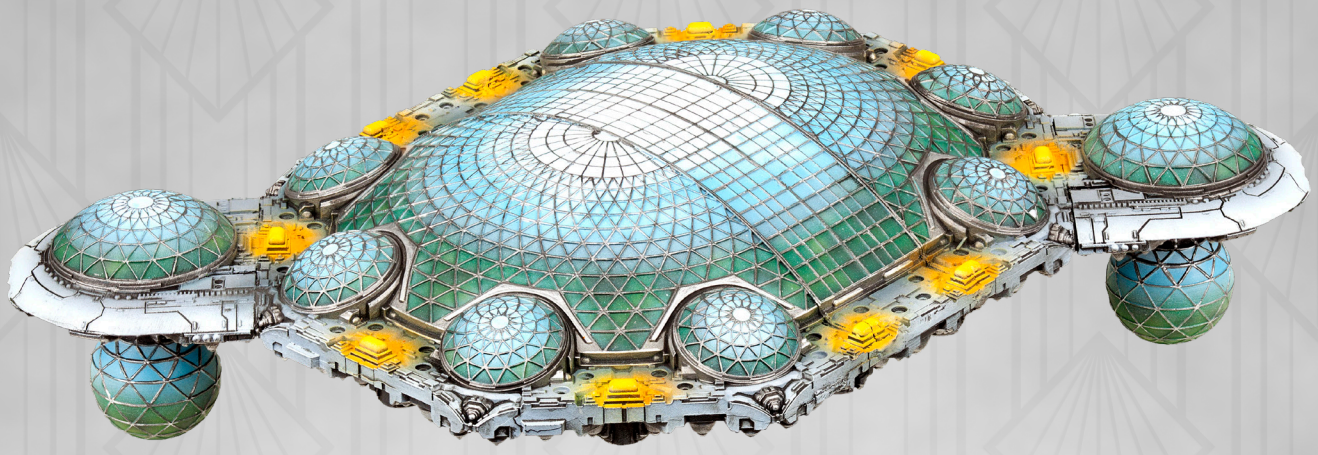

Hardpoints

This Space Station has a Life Support Feature. It must take four additional Features, and it may take up to three options from the Space Station Armaments list.

This station may be upgraded with **2** of the following:
- Astrobotanical Lab for +30 points
- Defence Grid for +80 points
- One option from the Space Station Features list

Astrobotanical Lab — +30 pts

Exo-Greenhouse

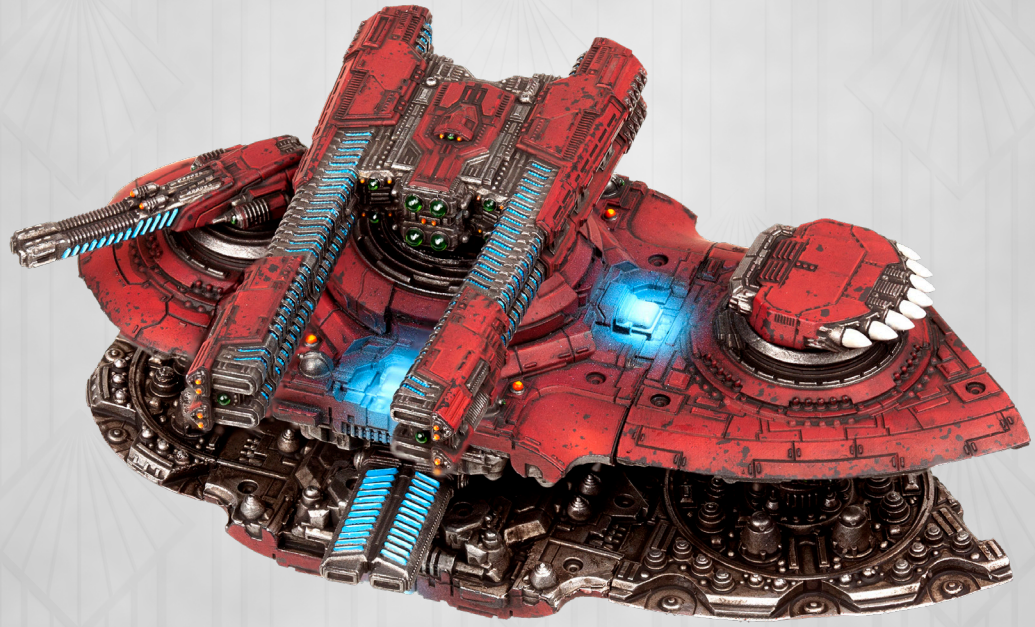

Signature Bloom

Friendly Ships within this Space Station's unmodified Signature are Hidden within its Bloom. Enemy Ships targeting a Hidden Ship's Group ignore two Spike if all Ships in the Group are Hidden.

This rule has no effect while this Space Station is controlled by an enemy player.

Defence Grid — +80 pts

Military Space Station

Dropships	3	-

Gate Node

This Gatestation's Dropships may only be used while you control it.

Hardpoints

This Space Station has a Life Support Feature, a Launch Control Feature and a Weapons Control Feature. It must take one additional option from the Space Station Features list

Shaltari Grav Hook	75 pts
Small Space Station	30mm

Scan	Sig	Hull	ES	KS	BS	G	Special
8"	6"	10	4+	4+	-	1	Shield-4+

Name	Arc	Att	Lock	DMG	Type	Special
Grav Hooks	F/S/R	2	3+	1	E	Arrest-2, Focused, Volley-3

Gravity Manipulator

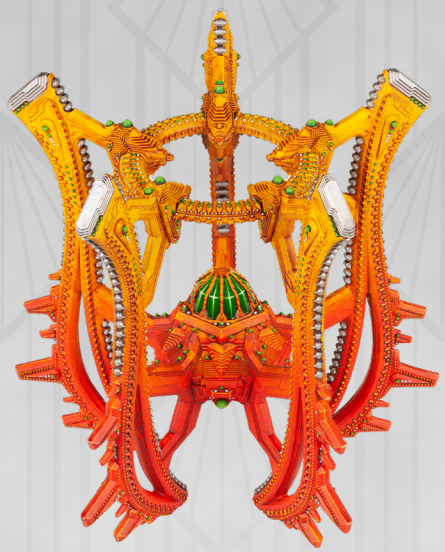

Friendly Ships in Orbit that start their movement within this station's Scan range increase their Group's total movement (after Orders) by 2". If all Ships in that Group are within this station's Scan range, that Group instead increases its total movement (after Orders) by 4" and gains Vectored until the end of its activation. Groups can only be affected by this rule once in their activation and only while that Group is in Coherency.

This special rule ceases to function while you do not control this station.

Hardpoints

This Space Station has a Life Support Feature and two Weapons Control Features.

Shaltari Anchor	100 pts
Large Space Station	50mm

Scan	Sig	Hull	ES	KS	BS	G	Special
12"	6"	24	4+	4+	-	1	Shield-4+, Gateship-3

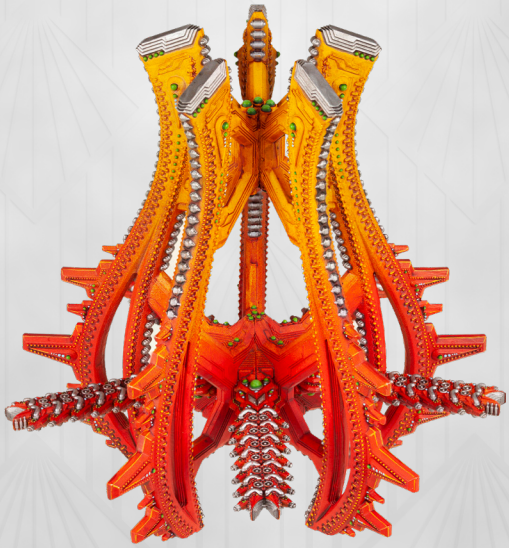

Voidspace Anchor

When an enemy Group within 6" of this Space Station activates, that Group may only move up to half of its Thrust this activation regardless of selected Order.

Hardpoints

This Space Station has a Life Support Feature. It must take two additional Features from the Space Station Features list, and may take one additional option from the Space Station Features list.

Shaltari Shuriken	140 pts
Large Space Station	50mm

Scan	Sig	Hull	ES	KS	BS	G	Special
12"	6"	24	4+	4+	-	1	Shield-4+

Name	Arc	Att	Lock	DMG	Type	Special
Station Disintegrator Bank	*	8	3+	1	E	Penetrator, Volley-5

Station Disintegrator Bank

Instead of the normal Arcs, Shaltari Shurikens have their own Arcs. A Shuriken has 5 Arcs, each 72 degrees. The easiest way to define these Arcs is to follow the lines of adjacent vertical vanes, measured from the flight stand as normal. Follow these arcs when attacking instead of the normal rules for Arcs.

When you assign targets to this weapon, you may only use each Arc once.

Hardpoints

This Space Station has a Life Support Feature. It must take two additional Features from the Space Station Features list, and may take one additional option from the Space Station Features list.

Resistance Grand Station	70 pts
Medium Space Station	40mm

Scan	Sig	Hull	ES	KS	BS	G	Special
6"	6"	14	3+	5+	-	1	-

Name	Arc	Att	Lock	DMG	Type	Special
Heavy Vent Cannon Turret	F/S/R	2	3+	2	E	Fusillade-1, Overcharge, Reave-1
XN-31-S Mass Driver Turret Pair	F/S/R	2	2+	2	K	Critical-1, Volley-2

Heavy Vent Cannon Turret

When you assign targets to this weapon, you may have this Space Station gain 2 Spikes, if you do, it counts as going on Weapons Free Orders for the purposes of its Special rules.

Hardpoints

This Space Station has a Life Support Feature. It must take two additional Features from the Space Station Features list, and may take one additional option from the Space Station Features list.

Resistance Astrobotanical Outpost	80 pts
Medium Space Station	40mm

Scan	Sig	Hull	ES	KS	BS	G	Special
6"	6"	14	3+	5+	-	1	-

Name	Arc	Att	Lock	DMG	Type	Special
Heavy Vent Cannon Turret	F/S/R	2	3+	2	E	Fusillade-1, Overcharge, Reave-1

Heavy Vent Cannon Turret

When you assign targets to this weapon, you may have this Space Station gain 2 Spikes, if you do, it counts as going on Weapons Free Orders for the purposes of its Special rules.

Signature Bloom

Friendly Ships within 6" of this Space Station are Hidden within its Bloom. Enemy Ships targeting a Hidden Ship's Group ignore a Spike for each Hidden Ship in that Group.

This rule has no effect while this Space Station is controlled by an enemy player.

Hardpoints

This Space Station has a Life Support Feature. It must take two additional Features from the Space Station Features list, and may take one additional option from the Space Station Features list.

Bioficer Hypershredder	220 pts
Large Space Station	50mm

Scan	Sig	Hull	ES	KS	BS	G	Special
12"	4"	22	4+	4+	6+	1	-

Name	Arc	Att	Lock	DMG	Type	Special
Dimensional Hypershredder	FN	12	3+	1	*	Bombardment, Critical-1, Focused, Reave-2

Dimensional Hypershredder

When you attack with this weapon, choose Energy or Kinetic. This weapon's Type becomes the chosen Type for this attack.

Slow Traversal

This Space Station uses arcs as if it was a Ship and may only be turned due to this rule. When this Space Station is activated, you may turn it up to 22 degrees in any direction (22 degrees is the size of the FN Arc), even if it is controlled or contested by an opponent.

Hardpoints

This Space Station has a Weapons Control Feature, a Supercontrol Node Feature and two Reactor Core Features. It may take one additional option from the Space Station Features list.

Bioficer Hypersummoner	200 pts
Large Space Station	50mm

Scan	Sig	Hull	ES	KS	BS	G	Special
12"	4"	22	4+	4+	6+	1	-

Summoned Ingress

From the 2nd round onwards while you control this Space Station, when a Group of L Tonnage not on the table deploys, you may treat this Space Stations front Arc up to 6" away as that Group's deployment zone. If a Group deploys this way, roll a dice for each Ship in that Group and apply the corresponding Crippling Effect to the Ship and the Group cannot attack or launch Assets this round.

Hypersummoning

If you control this Space Station, when you launch a Wing from a friendly Bioficer Ship, instead of launching them normally, you may place them anywhere within 18" of this Space Station. Wings placed this way suffer the effects of any scenery they are placed on but ignore intervening scenery. Wings placed this way count as having moved but may form and divide into Wings as if they had moved normally but cannot move or form and divide into Wings during the Asset Phase. Wings placed this way cannot be the target of your Abilities until the end of the round (other players may target them with Abilities as normal).

Hardpoints

This Space Station has a Supercontrol Node Feature. It may take one additional option from the Space Station Features list.
